In the swatch books, you'll find over 15 fabric collections from renowned Italian suppliers with a long-standing tradition, along with more than 150 types of linings. These include Reda, Ermenegildo Zegna, Dormeuil, Loro Piana, Tessitura Monti, and many others.

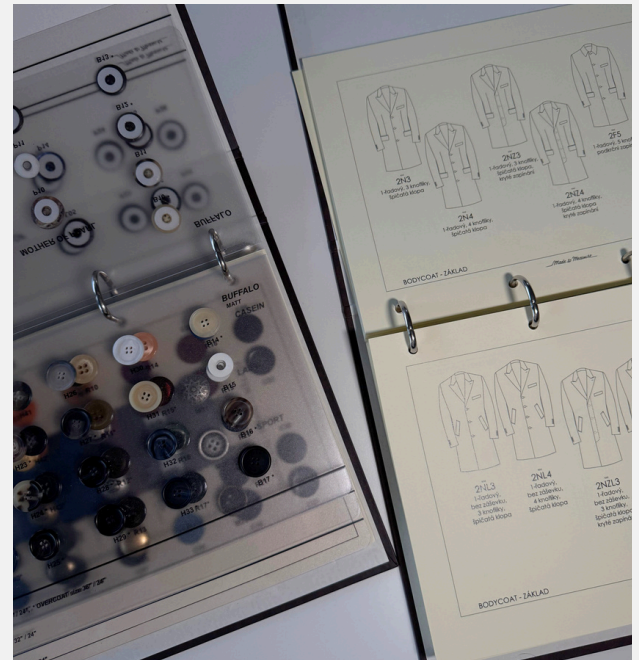

Personality & Originality

I don't like limits or anything ordinary – especially not in fashion. That's why the styling options are limited only by your imagination, and a wide range of details can be customized during the creation process, such as:

- real opening cuffs
- contrast vents/stitching/ linings
- personalized labels
- embroidered monograms
- contrast button holes
- embroidered names on garment bags
- engraved buttons

1. Personal meeting

We'll meet at the location you prefer (office or home). Together, we'll go through different styles, I'll help you choose based on your body shape, record your body codes for a perfect fit, and we'll select all materials and details. I'll take the necessary measurements and determine the final price based on the craftsmanship and fabrics. + 50% deposit is required.

3. Handover

PDelivery will again take place at your preferred location. If there's any issue with the garment, you won't incur any repair costs, and the handover will only occur once you are completely satisfied.

The remaining 50% of the price is then due.

2. Production

I'll configure your order and send it to production. Standard production takes 3–4 weeks, with an express option available in just 9 days. The entire process is monitored, allowing me to provide you with an exact delivery date.
